IDENTIFIERS	Exit Examinations; *New Jersey High School Proficiency Test

ABSTRACT

The New Jersey Grade 11 High School Proficiency Test (HSPT11) consists of reading, mathematics, and writing sections, all of which must be passed as graduation requirements. Students who do not pass all three sections receive additional instruction and are retested on the section or sections they did not pass. Scores are reported as scale scores from 100 to 500, with a passing score of 300. One or more sections of the HSPT11 was administered in April 1995 to 15,582 Grade 11 students, excluding special education and limited English proficiency students. The majority of these students, 14,620, were retesting students, and only 962 were first-time test takers. Of the retesters, 61% passed all the sections attempted, and of the first-time takers, only 45.1% passed all the sections. Table 1 presents statewide results for students who took the April test. Tables 2 through 6 present results for each subject. Finally, the report contains a summary, in table form (43 pages) of district-by-district and school-by-school results grouped by District Factor Groups. District Factor Groups describe the socioeconomic status of residents of the area. (Contains seven tables.) (SLD)

Grade 11 High School Proficiency Test
April 1995

GRADE 11 RESULTS

The New Jersey Grade 11 High School Proficiency Test (HSPT11) consists of three sections--Reading, Mathematics, and Writing--and must be passed as one of the requirements for a high school diploma. Students who do not pass all three sections will receive additional instruction and will be retested on the section or sections they did not pass. The Total HSPT11 Reading, Mathematics, and Writing scores are reported as scale scores with a range of 100 to 500. The passing score is 300.

One or more sections of the HSPT11 was administered between April 4 and 6, 1995 to 15,582 Grade 11 students. This figure excludes those students classified as special education or limited English proficient.

This report includes a series of tables summarizing test results for the State, Special Needs Districts, All Other (not special needs) Districts, and District Factor Groups (DFGs).

Table 1 presents statewide results for Grade 11 students who took the April 1995 test. Of the 15,582 Grade 11 students who took the April 1995 test, 14,620 were Grade 11 retesting students and 962 were Grade 11 first-time testing students. Of the 14,620 Grade 11 students who were retested with HSPT11, 61.0% passed all the sections attempted (whether one, two, or three). Of the 962 Grade 11 first-time testing students, 45.1% passed all the sections.

Results for each subject--Reading, Mathematics, and Writing--are included in Tables 2 through 6. Finally, the report contains district-by-district and school-by-school results grouped by DFG. An explanation of the District Factor Groups is included at the end of this report.

The HSPT11 scores in this report exclude special education students, limited English proficient students, and students whose answer folders were voided.

The data in this report are based on information collected from students' answer folders. Subsequent to the distribution of test results in June 1995, there was a procedure for amending student identification information to correct errors that were made when students' answer folders were completed. Corrections to student identification information that were received by the State Department of Education by June 30, 1995 have been included in these summaries.

Highlights from the April 1995 Grade 11 Tables

Special Needs

Of the 5,624 Grade 11 students in the Special Needs Districts who took the April 1995 test, 5,326 were Grade 11 retesting students and 298 were Grade 11 first-time testing students. 44.6% of the retesting students passed all the sections attempted (whether one, two, or three). 27.9% of the first-time students passed all three sections.

All Other

Of the 9,958 Grade 11 students in the All Other (not special needs) Districts who took the April 1995 test, 9,294 were Grade 11 retesting students and 664 were Grade 11 first-time testing students. 70.4% of the retesting students passed all the sections attempted (whether one, two, or three). 52.9% of the first-time students passed all three sections.

District Factor

The percent of Grade 11 retesting students who passed all the sections attempted ranged from 42.0% of 4,788 students in DFG A to 84.6% of 13 students in DFG J. The percent of Grade 11 first-time testing students who passed all three sections ranged from 23.0% of 287 students in DFG A to 57.9% of 114 students in DFG DE, 56.1% of 82 students in DFG FG, 51.9% of 133 students in DFG GH, and 55.3% of 141 students in DFG I. (Because ten or fewer students in DFG J were first-time testing Grade 11 students in April 1995, this number is not reported.)

Reading

Of the 10,025 Grade 11 students who took the Reading section, 9,163 were retesting students and 862 were first-time testing students. Of the 9,163 retesting students, 5,862 students or 64.0% passed Reading. Of the 862 first-time testing students, 622 students or 72.2% passed Reading.

Mathematics

Of the 9,346 Grade 11 students who took the Mathematics section, 8,490 were retesting students and 856 were first-time testing students. Of the 8,490 retesting students, 5,684 students or 66.9% passed Mathematics. Of the 856 first-time testing students, 632 students or 73.8% passed Mathematics.

Writing

Of the 7,062 Grade 11 students who took the Writing section, 6,215 were retesting students and 847 were first-time testing students. Of the 6,215 retesting students, 3,807 students or 61.3% passed Writing. Of the 847 first-time testing students, 616 students or 72.7% passed Writing.

[1] EXCLUDES SPECIAL EDUCATION, LIMITED ENGLISH PROFICIENT, AND VOIDED STUDENT ANSWER FOLDERS.
[2] RETESTED STUDENTS WHO PASSED ALL THE SECTIONS ATTEMPTED.
[3] FIRST-TIME TEST TAKERS WHO PASSED ALL THREE SECTIONS.

DISTRICT FACTOR GROUPS

The District Factor Group (DFG) is an indicator of the socioeconomic status of citizens in each district and has been useful for the comparative reporting of test results from New Jersey's statewide testing programs. The measure was first developed in 1974 using demographic variables from the 1970 United States Census. A revision was made in 1984 to take into account new data from the 1980 United States Census. The DFG designations were updated again in 1992 using the following demographic variables from the 1990 United States Census.

A. Percent of adult residents who failed to complete high school

B. Percent of adult residents who attended college

C. Occupational status of adult household members:

1 = laborers
2 = service workers (except private and protective)
3 = farm workers
4 = operatives and kindred workers
5 = protective service workers
6 = sales workers
7 = clerical and kindred workers
8 = craftsmen, foreman, and kindred workers
9 = quasi-professionals
10 = managers, officials, and proprietors
11 = old and new professionals

D. Population Density:

persons per square mile

E. Income:

median family income

F. Unemployment:

percent of those in the work force who received some unemployment compensation

G. Poverty:

percent of residents below the poverty level

The variables described above were combined using a statistical technique called principal components analysis, which resulted in a single measure of socioeconomic status for each district. Districts were then ranked according to their score on this measure and divided into eight groups based on the score interval in which their scores were located. Eight DFGs have been created based on the 1990 United States Census data. They range from A (lowest

socioeconomic districts) to J (highest socioeconomic districts) and are labeled as follows: A, B, CD, DE, FG, GH, I, J. Updating the DFGs has not changed any district's designation as Special Needs or not Special Needs.

Whereas the DFGs based on the 1980 United States Census resulted in 10 groups containing approximately equal numbers of districts, the DFGs based on the 1990 United States Census resulted in eight groups of different sizes depending on their score. The number of districts* in each DFG is now as follows:

DFG	Number of Districts
A	35
B	78
CD	75
DE	100
FG	87
GH	78
I	105
J	15

* Includes all New Jersey's public school districts (regardless of school configuration or grade levels served).
